**LETTER ENCLOSING RESCISSION OF PREVIOUS  
NON-PUBLICATION REQUEST AND PETITION**

MAIL STOP PETITION  
Commissioner for Patents  
P. O. Box 1450  
Alexandria, VA 22313-1450

Sir:

This letter and the attachments are being sent to both Mail Stop Petition and Mail Stop PG PUB.

Enclosed herewith please find a Rescission of Previous Non-Publication Request and a Petition for Revival of an Application for Patent Abandoned for Failure to Notify the Office of a Foreign or International Filing under 35 U.S.C. § 122(b)(2)(B)(iii) and 37 CFR 1.137(f). The above-referenced patent application was originally filed as a continuation application of parent United States application no. 09/286,809. The continuation application was filed with a non-publication request and certification.

The certification provides "that the invention disclosed in the attached application has not and will not be the subject of an application filed in another country, or under a multilateral agreement, that requires publication at eighteen months after filing." In the above certification it is believed that the use of "invention" refers to the claims of the subject application. The claims in the above patent application were not originally submitted in a counterpart foreign application. Moreover, at the time of filing the present application, there was no intent to file the claims in a

**RECEIVED**

AUG 04 2003

OFFICE OF PETITIONS

foreign application. However, after some time, the claims were submitted in a counterpart foreign application. As such, it is believed that the original certification was proper.

A Canadian application claiming priority to the parent application was filed on November 18, 1997. The Canadian application has basically the same specification and drawings as the above-referenced patent application. However, the Canadian application did not include the same claims as the above patent application when it was originally filed. On August 20, 2002 (after the filing of this application), the claims pending in the present application were filed in the Canadian application. As such, as indicated above, it is believed that the original certification was proper as the claims in this patent were not pending in a counterpart foreign application at the time of filing. However, it is believed that the present application may have been abandoned 45 days after the claims were filed in Canada, and a rescission of non-publication was not filed.

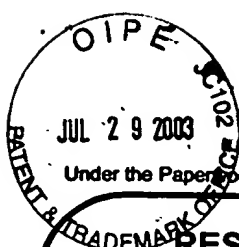

Analysis by the undersigned of the MPEP, Section 37 of the Code of Federal Regulations, and Title 37 of the Code of Federal Laws, does not yield, with certainty, the answer to whether the earlier filed Canadian application, which did not include the same claims as the above patent but was subsequently amended to include the claims, is the type of disclosure that would cause the application to become abandoned. As such, the enclosed Rescission of Previous Nonpublication Request and Petition to Revive under 35 U.S.C. § 122(b)(2)(B)(iii) is submitted in the event the application was abandoned due to the filing activities in Canada.

Please contact the undersigned at 303-629-3427 if you have any questions.

Respectfully submitted,

Date: July 29, 2003

A request that the above-identified application not be published under 35 U.S.C. 122(b) (nonpublication request) was included with the above-identified application on filing pursuant to 35 U.S.C. 122(b)(2)(B)(i). I hereby rescind the previous nonpublication request.

If a notice of foreign or international filing is or will be required by 35 U.S.C. 122(b)(2)(B)(iii) and 37 CFR 1.213(c), I hereby provide such notice. This notice is being provided no later than forty-five (45) days after the date of such foreign or international filing.

*If a notice of subsequent foreign or international filing required by 35 U.S.C. 122(b)(2)(B)(iii) and 37 CFR 1.213(c) was not filed within forty-five (45) days after the date of filing of the foreign or international application, the application is ABANDONED, and a petition to revive under 37 CFR 1.137(b) is required. LETTER ENCLOSING RESCISSION OF PREVIOUS  
NON-PUBLICATION REQUEST AND PETITION

MAIL STOP PETITION  
Commissioner for Patents  
P. O. Box 1450  
Alexandria, VA 22313-1450

Sir:

This letter and the attachments are being sent to both Mail Stop Petition and Mail Stop PGPUB.

Enclosed herewith please find a Rescission of Previous Non-Publication Request and a Petition for Revival of an Application for Patent Abandoned for Failure to Notify the Office of a Foreign or International Filing under 35 U.S.C. § 122(b)(2)(B)(iii) and 37 CFR 1.137(f). The above-referenced patent application was originally filed as a continuation application of parent United States application no. 09/286,809. The continuation application was filed with a non-publication request and certification.

The certification provides "that the invention disclosed in the attached application has not and will not be the subject of an application filed in another country, or under a multilateral agreement, that requires publication at eighteen months after filing." In the above certification it is believed that the use of "invention" refers to the claims of the subject application. The claims in the above patent application were not originally submitted in a counterpart foreign application. Moreover, at the time of filing the present application, there was no intent to file the claims in a

RECEIVED

AUG 01 2003

OFFICE OF PETITIONS

foreign application. However, after some time, the claims were submitted in a counterpart foreign application. As such, it is believed that the original certification was proper.

A Canadian application claiming priority to the parent application was filed on November 18, 1997. (The Canadian application has basically the same specification and drawings as the above-referenced patent application.) However, the Canadian application did not include the same claims as the above patent application when it was originally filed. On August 20, 2002 (after the filing of this application), the claims pending in the present application were filed in the Canadian application. As such, as indicated above, it is believed that the original certification was proper as the claims in this patent were not pending in a counterpart foreign application at the time of filing. However, it is believed that the present application may have been abandoned 45 days after the claims were filed in Canada, and a rescission of non-publication was not filed.

Analysis by the undersigned of the MPEP, Section 37 of the Code of Federal Regulations, and Title 37 of the Code of Federal Laws, does not yield, with certainty, the answer to whether the earlier filed Canadian application, which did not include the same claims as the above patent but was subsequently amended to include the claims, is the type of disclosure that would cause the application to become abandoned. As such, the enclosed Rescission of Previous Nonpublication Request and Petition to Revive under 35 U.S.C. § 122(b)(2)(B)(iii) is submitted in the event the application was abandoned due to the filing activities in Canada.

Please contact the undersigned at 303-629-3427 if you have any questions.

Respectfully submitted,
